

Warehouse Picker (m/f/d) in Berlin

Your Tasks:

- You pick goods and prepare materials for production.
- You handle internal transport of components and materials.
- You carry out relocations and record them in the system.
- You stock shelves and ensure a smooth material flow.
- You perform inventory counts and monitor stock levels.
- You work with scanners and digital warehouse management systems.
- You communicate with colleagues from the warehouse, production, and with truck drivers.

Your profile:

- A completed vocational training as a warehouse logistics specialist or qualified warehouse operator is desirable.
- A valid forklift license and experience in operating forklifts
- Willingness to work in shifts.
- You speak fluent German at a minimum of C1 level or are a native speaker.

Our offer:

- 37.5 hours/week
- An interesting and varied working environment awaits you.
- Flat hierarchies and collegial cooperation create a family atmosphere.
- You benefit from a wide range of further training opportunities.
- 30 days vacation per calendar year
- Good public transport connections and free employee parking are available to you
- Participation in community-promoting company events.
- Company pension scheme and BVG company ticket/job bike round off our benefits.

In Berlin, we use unique laser welding technology to develop, optimize and produce complex lightweight components and assemblies made of steel, stainless steel and aluminum for future-oriented and sustainable mobility.

Become part of the Photon family, develop your personal potential and shape global projects with us!

We look forward to receiving your complete application, stating your earliest possible starting date and your salary expectations.
